INTRODUCTION TO THE Teaching Creative Dance DIPLOMA COURSE

A prerequisite for entering the Diploma Course is attendance at an **Introductory Workshop** to familiarise the prospective student with Mangala Studios' unique approach to the teaching of Creative Dance.

At the workshop, the students will participate in a dance experience conducted by teachers of the course. An overview of the course will cover units of study, costs and the application of this kind of creativity in workplace settings.

All questions arising out of the workshop will be answered in depth by the teachers who look forward to hearing about the participant's professional interests.
